Cottonwood Stables

Equine Retirement and Lay-Ups Only

Who are we?

This August marks 15 years for Cottonwood Stables' move from Cypress Texas to Crockett, Texas. From our 10 acres in Cypress, to our glorious 120 acres in the rolling hills of East Texas. From a HJ barn, to a full fledged equine retirement facility, our world is still centered around horses now more than ever.

We have the privilege of being entrusted by many caring owners for their long time companions and once top performing athletes, that can no longer do their jobs. Some come to us just for a little rest and rehab, others permanently.

We pride ourselves on providing a safe, horse-friendly environment, with lots of daily individual care and attention. We believe in letting them enjoy their natural environment while still safe guarding and nurturing their well being.

Special Needs

We have the flexibility to deal effectively with a wide range of special needs. Cushing's Syndrome, Anhidrosis, Asthma, Lameness, Arthritis, Uveitis, EPA and general surgery recoveries are a few of the conditions we have successfully managed over the years.

When we go to the vet for our annual dental work they always remark on the appearance and condition of our guys especially

What do we do?

- Safe fences, roomy stalls, large pastures, paddocks and turn-out areas for single and/or multiple horses
- Feedings specially formulated for Seniors, with 3-4 feedings daily as needed
- For those dentally challenged, roughage supplements like soaked beet pulp and alfalfa cubes
- Clean, fertilized pastures with fresh water and salt blocks in the summer and rye grass seeding in the winter
- Regular baths and grooming throughout the year
- Regular worming and farrier trims included in our base board.

*Our Best References
Are Our Horses --
Come and See For
yourself.*

when they find out how many are 20+ years old.

The only "extra" costs you will incur are any vet bills, annual vaccinations, dental float and sheath cleaning. **Blanketing, bathing, fly-spraying,, grooming, worming, farrier trims and basic first aid are all included in our monthly fee for base board.**

www.cottonwoodstables.com

We control can control costs better (without short changing our residents in any way), since we are in a rural area where our taxes and general services are less costly than they are in metropolitan areas. We have great references, of course, including not 1, but 3 of the local vets in our area. See our facebook page under Dawn Johnson for more photos of current residents.

Saving the Best for the Last.....

To answer some primary questions, “our” horses, (regardless as to whom they legally belong to), become part of our family if they are on our property. Consequently they receive the Individualized care, on a daily basis, that they love and deserve.

Trailing/Pick-up: Is provided at the cost of gas, plus \$75.00, up to 150 miles.

Horse Requirements on Arrival: Current Negative Coggins, Proof of vaccinations, Waterproof turn-out blanket, Stable blanket if available, List of special needs and/or medications, 3 day supply of current grain for change-over, vet records if available.

Our Program:

- Quality senior grain 2-3x a day, plus rice bran as needed
- Horses are carefully matched up for turn-out groups, max number of horses in a group is limited to 4.
- Horses are always separated as needed for feeding to ensure that everyone gets what they are supposed to.
- Supplements or medications as provided by owner
- Free choice coastal Bermuda hay
- Soaked alfalfa cubes and beet pulp 1x day
- Mineral blocks and salt in each pasture
- All horse paste wormed every 8-12 weeks
- All horses trimmed by farrier every 6 weeks
- All horses groomed throughout the week at feeding time
- Summer only, horses are bathed every 2-3 days as needed
- All pastures and paddocks fertilized annually
- Run-In sheds in some pastures, shade trees in all pastures
- Horses are stalled when the weather is extreme -- hot or cold, fans in the summer, blankets in the winter. We do not stall horses for long periods of time for any reason except for bad weather, medical injury or owner request
- All stalls bedded in heavy pine shavings, mats in most stalls
- All horses fly sprayed as needed
- Annual vaccinations given by farm to save money but vaccines are purchased from the vet to ensure quality
- Vet on premises annually for dental work and sheath cleaning
- Quarterly photos and emails to update you on your horse
- Owners are always welcome to come for a visit

As of August 1st, 2011 our monthly board for retirees is \$425
